WORK EXPERIENCE

Company Name – RS-Consultants Pvt. Ltd.

May 2024 – Aug 2024

Web Developer Intern (Mern Stack)

- Applied front-end and back-end technologies to projects, demonstrating a strong grasp of web development principles.

Company Name – Shopify (Local Dropshipping)

Jan 2022 – Mar 2022

- Gained practical experience in setting up and managing a Shopify store for local dropshipping, focusing on product sourcing and effective marketing strategies to boost sales.

Company Name – Call Center

May 2020 – July 2020

- Customer Support Representative

PROJECTS

Project Title – ECommerce Web App

2024

- Developed a full-stack e-commerce platform that provides seamless shopping experiences. Features include product listings, creating & managing order, and recording analytics. Utilized the MERN stack for the backend and frontend, ensuring responsive design and a user-friendly interface for both customers and admins.

Project Title 2 – Point of Sale (POS)

2024

- Designed and implemented a robust POS system for retail operations, enabling real-time sales processing, inventory management, and transaction tracking. and multi-payment methods. Built using the MERN stack with a focus on speed, reliability, and a user-friendly interface for efficient checkout processes.

Project Title 3 –Real Estate CRM

2024

- Developed a dynamic real estate platform for managing customer data, leads, and property inventory. The system includes features such as property listings, customer relationship management (CRM), and lead tracking. Built with the MERN stack, the platform enables agents to efficiently manage client interactions, property details, and sales opportunities in real-time.

Project Title 4 – Train Ticket Reservation Web App

2024

- Built a comprehensive train ticket reservation system that allows users to search for trains, book tickets, and manage reservations. The platform features real-time seat availability, fare calculation, and secure payment integration. Developed using the MERN stack, ensuring a seamless and intuitive user experience for travelers while efficiently handling backend operations like booking confirmations and cancellations.

EDUCATION

[National University of Modern Languages (NUML Islamabad)]

[Bachelor in Software Engineering (7th Semester)]

LEADERSHIP/EXTRACURRICULAR

- Developed various web and Python projects during free time to enhance programming skills and practical knowledge.
- Actively explore new technologies and commit to continuous learning to stay updated with industry trends.

ACCOMPLISHMENTS

- Represented the university in a Web Development Coding competition and demonstrating proficiency in practical application of software engineering concepts.

SKILLS

- **Web Development:** HTML, CSS, JavaScript, Tailwind CSS, MERN Stack (MongoDB, Express.js, React.js, Node.js)
- **Programming Languages:** C++, Java, python
- **Version Control:** Git, GitHub, AWS
- **Technologies & Frameworks:** Bootstrap, Material UI, Glass UI, REST APIs, JSON
- **Productivity Tools:** Ms Word, Ms PowerPoint, Ms Excel
- **Others:** Ai Object Detection, Linux, Penetration Testing, Vulnerability Analysis, Gaining Access, phishing.
- Proficient in Internet and Basic Computer Applications

Soft Skills:

- Strong communication skills
- Problem-solving abilities
- Team player
- Time management
- Adaptability and willingness to learn new technologies

CERTIFICATIONS

Certification in Ethical Hacking

- Completed a foundational course in ethical hacking, focusing on Linux environments. Gained practical skills in penetration testing, network security assessment, and vulnerability analysis, with an emphasis on ethical practices and responsible hacking methodologies.

Certification in Information Technology

- Completed an extensive course in Information Technology, covering essential topics such as networking, database management, and software development. Developed a solid understanding of IT concepts and practices, equipping me with the skills needed to effectively contribute to technology-driven projects.
